Github:[ahmad-sp](#)

Summary

Engineering student specializing in Artificial Intelligence and Machine Learning with a good understanding of Linux and Python. Comfortable working with Django, React, and databases to develop and deploy simple applications. Interested in learning cloud services, DevOps practices, and system administration. Focused on writing clean, reliable code and improving technical skills through hands-on work.

Experience

Cybersecurity intern

Academor

December 2023 – January 2023

- Learned about system and network security, phishing awareness, and password protection.
- Applied basic Linux commands and tools to understand system safety and data protection

Projects

AgroGen

October 2024

- Developed and integrated a Streamlit-based multilingual chatbot to assist farmers with crop-related queries, enhancing accessibility to agricultural support like disease detection using AI in a Hackathon conducted on October 2024

VR AI Interview Stimulator

March 2025 – Present

- Designing and developing a VR-based interview simulation platform using Django backend and Unity frontend.
- Implementing AI-driven Q&A, real-time evaluation, and feedback through speech-to-text and text-to-speech integration. Building a realistic 3D interviewer avatar with lip-sync..

Skills

Programming

Python,C,Julia,C++

Web Development

HTML,CSS,React,
Django, MongoDB, MySQL

Cloud & DevOps

GCP,Github Actions

Version Control

Git,Github

AI & ML

PyTorch,Scikit-learn,NLP

Productivity Tools

Microsoft Excel,PowerBI

Education

Bachelor of Engineering in Artificial intelligence and Machine learning

Yenepoya Institute of Technology,Mangalore

2022 - Present

CGPA : 7.42

Higher Secondary Education

Wadihuda Progressive English School,CBSE aff.,Payangadi
Grade : 71%

2020 - 2022

Secondary Education

Latheefiya English School,CBSE aff.,Payyanur
Grade : 84%

2020

Certifications

- Cybersecurity – Academor (Feb 2024)
- MongoDB Basics – MongoDB University (Jul 2024)
- Git Training – Spoken Tutorial (May 2025)
- Python for Data Science – IBM Skills Network (Jan 2024)
- Hands-on AI for Real World Applications – IIT Kharagpur (Nov 2024)
- NLP & Text Mining – Simplilearn (Mar 2025)
- Rapid AI Services Development – eTrain (Dec 2024)
- R – Spoken Tutorial (Dec 2024)

Achievements

- Merit Certificate – AI4ICPS Course (Nov 2024): Received from IIT Kharagpur faculty in recognition of outstanding performance in the “Hands-on AI for Real World Applications” program.
- Hackathon Participation (Oct 2024): Designed and developed AgroGen, an AI-powered multilingual chatbot for farmers, improving accessibility to agricultural support through AI.
